

CITY OF KENTWOOD PARKS & RECREATION

RED HIKE AND SEEK

- Step 1: Head out on the Red Trailhead. You will start off in a South and slightly East direction.
- Step 2: After a long way into the trail, you'll be nearing a Small Building. Stop next to the tree to the Southwest right before you get to the Small Building.
- Step 3: Look up at the tree and notice how it looks a little different. Does it have little berry like things on it? This is a Juniper Tree.

- Step 4: As you continue down the path you will see lots of Maple Trees on the North side of the trail. See how many you can find: _____

- Step 5: Continue on the trail and stop after you round the old golf green. On the South side of the trail look for something with very plain symmetrical leaves, it might have red bundles of seeds on them too. That is Staghorn Sumac.

- Step 6: Continue around the curve and head North on the trail.
- Step 7: Keep your eyes out for a Pond on the Northeast side of the trail.
- Step 8: Further up the trail you'll find another Pond on the Northeast side of the trail.
- Step 9: Continue in a Northern direction back to the clubhouse.

How to navigate with a compass:

1. Hold the compass flat/level.
2. Turn the dial so that the N lines up with the arrow and the S lines up with the string.
3. Turn yourself and the compass till the red side of the needle is pointing at the N.
4. You are now facing North.
5. As you turn, the red side of the needle will continue to point in the North direction.
6. Whenever you need to re-orient yourself, start with step 1.
